PROFESSIONAL SUMMARY

Product & business operator with experience building and launching digital products and services from 0-to-1, particularly across Fin-Tech, marketplaces and service businesses. Experienced in turning customer needs and market insights into strategies, requirements, priorities and executions while coordinating engineering, design, QA, marketing, and business stakeholders.

Led the launch of a fintech product that generated $350K in revenue post-launch, improved customer retention by 45%, and built feedback loops with a 6000+ member community. Also led the marketplace MVP launch in 48 hours using Agile/Scrum methodology. Strong in product strategy, business operations, growth, customer research, stakeholder management and also experienced in coordinating cross-functional teams (engineering, design, QA) through discovery, sprint planning, and release.

CORE SKILLS

Product Management: Product Strategy, Product Discovery, Roadmap Prioritization, Backlog Management, PRDs, Epics, User Stories, Acceptance Criteria, MoSCoW, RICE, Value vs Effort, Go-to-Market, Launch Readiness, Release Coordination

Research and Analytics: User Research, Customer Interviews, Market Research, Competitive Analysis, Customer Journey Mapping, Google Analytics, Microsoft Excel, KPIs, OKRs, Retention Analysis, Churn Analysis

EDUCATION

Master of Business Administration (MBA), Business Administration and Management

Jan 2026 – Sep 2027

Delta State University, Nigeria – In Progress

Bachelor of Science, Mass Communication and Media Studies *Dec 2019 – Aug 2023*

Delta State University, Nigeria – Second Class Upper

EXPERIENCE

Product Manager, Agora MarketPlace July *2026 - Present*

Remote, Nigeria

- Shipped Agora's MVP in 48 hours by defining core user flows and product requirements, then building and deploying the web application via GitHub and Vercel, validating the marketplace concept with live users.
- Owned product roadmap and feature prioritization for Agora's digital marketplace, translating customer feedback and market research into PRDs for engineering and design.

Product Manager, Aced Xtrades Dec 2021 - May 2026

Remote, Delta State, Nigeria

- Launched ACEDXTRADES in six months with a team of 12 including, frontend and backend developers, designers, marketing and QA. Led product strategy, discovery, and requirements for a Fin-Tech product with crypto rails, driving $350K+ revenue post-launch.
- Increased retention by 45% by running structured feedback loops with a 6,000+ member community, identifying friction points, and prioritizing improvements using RICE scoring.

Product Lead – SpaceRestore Jan *2026 – Present*

Delta State, Nigeria

- Grew SpaceRestore, a cleaning and maintenance service based business, to 40+ paying clients with a 60%+ referral rate by gathering requirements from early service users and iterating on service offerings, pricing, and booking flow based on feedback.
- Launched SpaceRestore in three weeks by building and deploying a six-page site with a custom domain, brand identity, and service documentation.

Product Manager – Foodhunt Dec *2025 – May 2026*

Remote, Nigeria

- Aligned engineering, design, QA, and business stakeholders on product direction across a three-sided marketplace by running discovery, translating findings into epics, user stories, and acceptance criteria.
- Maintained consistent release cadence across customer, merchant, and rider experiences by owning the roadmap, facilitating sprint planning and backlog grooming, and coordinating releases using Agile methodologies.

Television Presenter – Delta Broadcasting Service *Sept 2021 – Dec 2023*

Warri, Delta State, Nigeria

- Anchored live radio programs and co-hosted television music shows in high-pressure, deadline-driven broadcast environments, building communication and audience-centered thinking skills transferable to stakeholder engagement.

Chief of Staff – National Youth Association of Nigeria *Feb 2022 – Aug 2023*

Delta State, Nigeria

- Ran cross-departmental operations for the Speaker's office, coordinating legislative aides across multiple workstreams under tight deadlines.
- Served as liaison between senior stakeholders and execution teams, resolving misalignment and influencing outcomes without formal authority.
- Standardized task tracking and prioritization systems to improve operational workflow and visibility across a distributed set of stakeholders.

CERTIFICATIONS

Product Management Basics Certification, Pendo.io, June 2026

Product Management: Fundamentals, EntryLevel, December 2025
